Dear Mr. Wiederhold:

Pursuant to the Georgia Rules for Hazardous Site Response, specifically Rule 391-3-19-.05(1) "Listing on the Hazardous Site Inventory," the Georgia Environmental Protection Division (EPD) has evaluated the above referenced property to determine whether your property is part of a site where a release of a regulated substance exceeding a reportable quantity has occurred.

Based on the data provided in your August 7, 2008 release notification for the Printpack, Inc., property, EPD has determined your property has been affected by a release exceeding a reportable quantity from a site that has been listed on the Hazardous Site Inventory known as the Rayloc Facility Site (HSI #10547). **Therefore, your property will be sublisted as part of the Rayloc Facility Site (HSI #10547) pursuant to Section 391-3-19-.05(1) of the Rules for Hazardous Site Response (available at www.epd.org).**

Please direct questions you may have regarding this matter to Ms. Antonia Beavers of the Hazardous Sites Response Program at 404-657-8600.

Sincerely,

Carol A. Couch
Director
