Re: Removal from the Hazardous Site Inventory
Former Stewart Avenue Substation, HSI #10794
578 Metropolitan Parkway
Atlanta, Fulton County, Georgia

Dear Mr. Mitchell:

The Georgia Environmental Protection Division (EPD) has reviewed the Compliance Status Report (CSR) dated June 12, 2009 for the above referenced site. Based on that review, I have determined the CSR is complete and concur with your certification of compliance that this site is in compliance with residential risk reduction standards. Therefore, I am designating this site as not needing further action and I am removing this site from the Hazardous Site Inventory in accordance with §391-3-19-.05(4)(b) of the Rules of Hazardous Site Response as of the date of this letter.

EPD's approval of the CSR extends only to those technical aspects of the document that expressly require EPD approval under applicable rules and statutes. This approval is not an endorsement by EPD that it accepts as conclusive any representations made in the document. Nor does EPD guarantee or warrant that the document is free of errors or omissions. EPD may later withdraw approval of this document, in whole or in part, if EPD determines that withdrawal is necessary to ensure compliance with the applicable rules and statutes.

As required by §391-3-19-.06(5)(f) of the Rules, a public notice announcing this determination shall be published in the Fulton County Daily Report and the Atlanta Journal-Constitution.

If you have any questions regarding this matter, please contact David Hayes of EPD's Hazardous Sites Response Program at 404-657-8600.

Sincerely,

Mark Smith, Chief
Hazardous Waste Management Branch
